Databases

MsSQL | PostgreSQL | MongoDB

Soft Skills

Teamwork and Collaboration | Time Management | Problem-Solving | Critical Thinking | Creativity

📇 PROFILE

A passionate and results-driven software developer eager to bring my extensive skills to your dynamic team. With a background in full-stack development, I thrive in identifying challenges, devising effective solutions, and delivering robust software that stands the test of real-world applications.

💼 WORK EXPERIENCE

DEVDYNO ⧉
Remote
09/2023 | Baku, Azerbaijan

- Crafting server-side logic using C# within the ASP.NET MVC framework
- Creating visually appealing and user-friendly interfaces using HTML, CSS, and JavaScript.
- Ensuring that web applications are optimized for various devices and screen sizes.
- Designing, implementing, and maintaining databases (SQL or NoSQL) for storing and retrieving data efficiently.
- Troubleshoot and debug issues to improve software quality and performance.
- Stay updated with emerging technologies and suggest innovative solutions to enhance products.
